

STAINLESS STEEL: FLAWLESS FINISH

Why choose stainless steel for domestic heating systems? Because its properties are ideal for creating long-lasting, highly effective, beautiful radiators and heated towel rails. Why choose AEON's stainless steel? Because we make sure we use top quality grades that ensure the longest life possible for our range of products.

Invented in Sheffield, England in the early 20th century, stainless steel is non-corrosive, easily maintained, hygienic and versatile. It is strong and durable, thus resisting peeling, flaking and discolouration. The inevitable minor scratches, dirt and marks that come with day-to-day living are easily eliminated with the AEON Care Pack. What's more, stainless steel is always fashionable, with its contemporary, sleek appearance and sensuous feel.

ZENITH

This tactile towel rail may give you ideas above your station as it gently warms your towels to keep out the cold. Simply designed; superbly engineered.

i Model shown: ZEN105-S (brushed matt)
